

## Antibiotic Spectrum

Created by: Kelly Percival, PharmD, BCPS-AQ ID

Antibiotic	Gram Positive Cocci			Gram Negatives			Anaerobes	Atypicals
	MRSA	MSSA	Streptococci	<i>H. influenzae</i> <i>Moraxella</i>	<i>E. coli</i> <i>Klebsiella</i>	<i>Pseudomonas</i>		
PCN			PCN					
Amox			Amoxicillin					
A/C, A/S			Amoxicillin-clavulanate and Ampicillin/Sulbactam				Amox/clav, Amp/sul	
Pip-tazo			Piperacillin-tazobactam					
			Nafcillin, Oxacillin					
					Aztreonam			
			1st Gen Ceph			1st gen (Cefazolin)		
			2nd Gen Ceph (Cefuroxime)					
			Cephameycins (cefoxitin, cefotetan)				Cephameycins	
			3a gen Ceph (Ceftriaxone, Cefotaxime)					
				3b gen Ceph (Ceftazidime)				
			4th Gen Ceph (Cefepime)					
			5th gen Ceph (Ceftaroline)					
			Cephalosporin/Beta-lactamase inhibitors (Ceftol-Tazo, Ceftaz-Avi)					
			Ertapenem				Ertapenem	
			Carbapenems (Meropenem, Imipenem, Doripenem)					
				Ciprofloxacin				Ciprofloxacin
			Levofloxacin					Levofloxacin
			Moxifloxacin					Moxifloxacin
			Aminoglycosides (Gent, Tobra, Amikacin)					
	TMP-SMX		TMP-SMX					
			Macrolides (Azith, Clarith)					Macrolides
	Tetracyclines (Doxycycline)							Tetracyclines
	Clindamycin						Clindamycin	
	Vancomycin							
	Daptomycin*							
	Linezolid*							
							Metronidazole	

\*= VRE Coverage

This antibiotic sensitivity chart is intended as a rough guide, it does not include all organisms, drugs, or specific drug nuances.

It does not replace references like the Sanford Guide or expert ID advice
